

INTEGRABLE DAY IN LOUGHBOROUGH

A half-day workshop on Algebra, Geometry and Integrability will be held at Loughborough University on November 25, 2016, room SCH.1.05 from 1.30pm. The speakers are:

Eugene Ferapontov (Loughborough): *Geometric aspects of dispersionless Hirota type equations*

Marina Logares (Oxford): *Mixed Hodge structures of $SL(2, C)$ character varieties*

Alexander Kasprzyk (Nottingham): *Balanced quivers and affine loops*

Laurent Manivel (Marseille): *TBA*

The meeting is part of a collaborative workshop series on Classical and Quantum Integrability, sponsored by the London Mathematical Society, involving Edinburgh, Glasgow, Leeds and Loughborough Universities. Funds may be available to support the attendance of research students. Enquiries should be addressed to the organiser: A.P.Veselov@lboro.ac.uk or 01509 222866.
